

Santa's COUNTDOWN to CHRISTMAS

Advent calendar

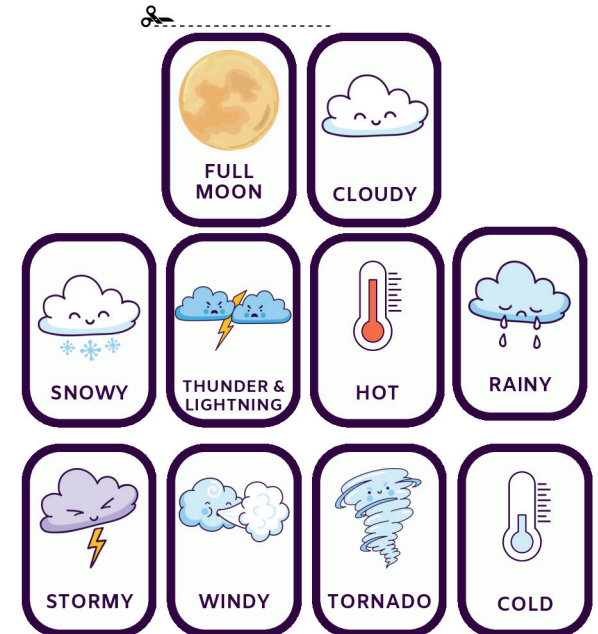

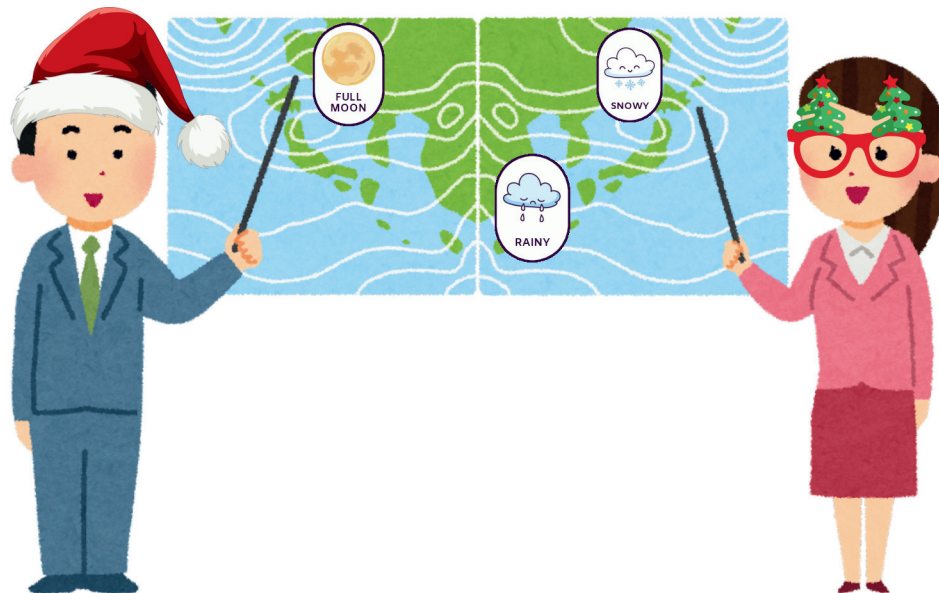

- Why do you think Santa needs to check the weather before delivering presents?
- How do you think a full moon helps Santa?

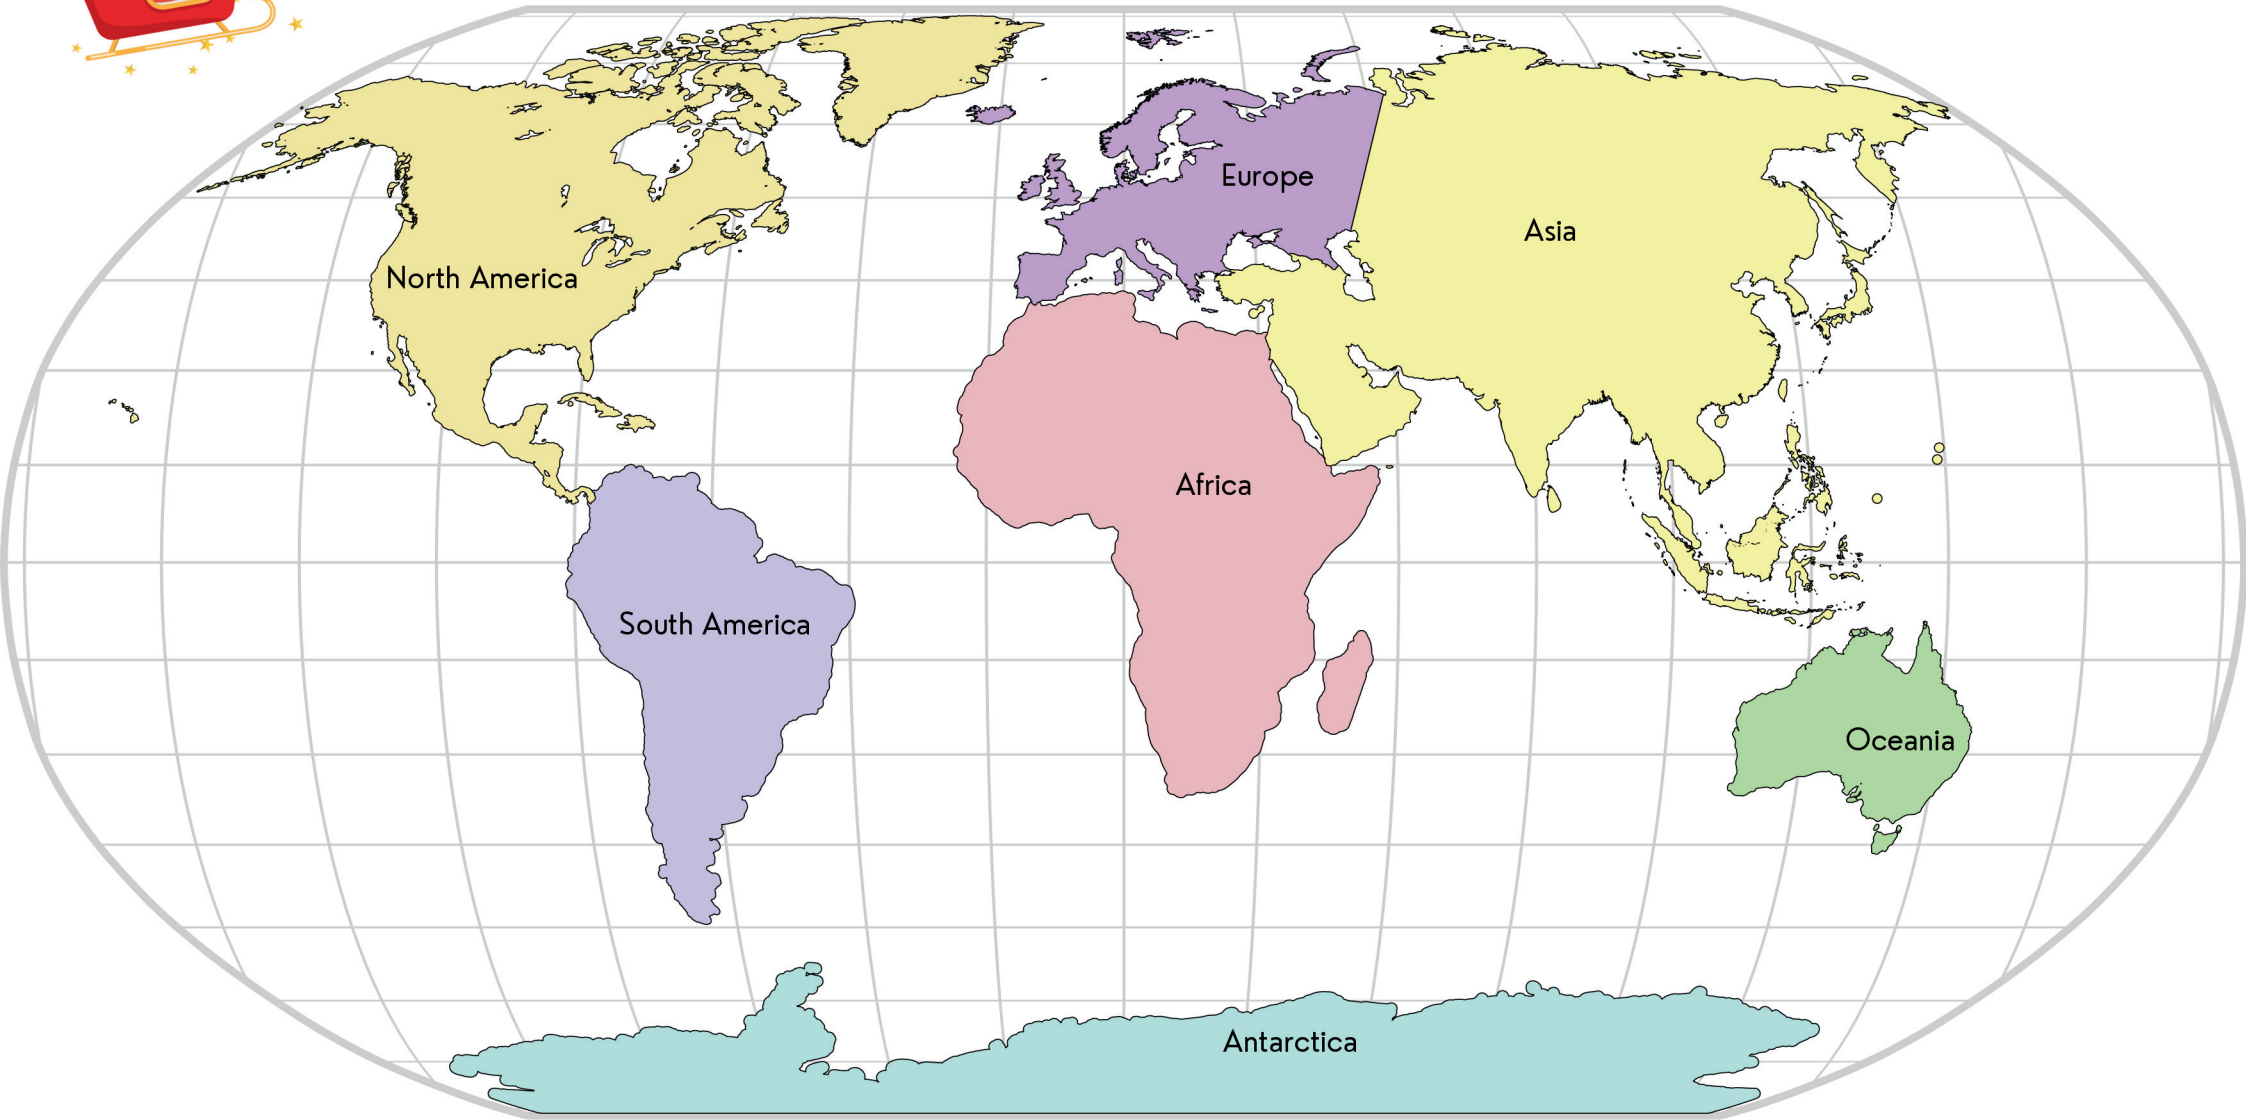

Be Santa's meteorologist and help him fly safely, warning him about the different weather conditions he might encounter in different regions of the world during his gifts delivery journey.

December 11th

Cut out the weather cards and place them on the world map on the next page to help Santa prepare for his trip.
