Peppermint candy bookmarks

Have you ever tried a peppermint candy? Do you know what it is?

Peppermint candies are sweet treats that taste cool and refreshing, like a little icy breeze in your mouth. They're usually small, round, and white with red stripes that swirl like a spiral. They're made with sugar and peppermint oil, which comes from a special type of mint plant.

Peppermint candies are linked to Christmas because their red-and-white colours match holiday themes, and their cool, refreshing taste feels like winter. Candy canes, a popular peppermint candy, are iconic Christmas decorations and treats, often used in stockings, desserts, and festive décor.

Cut out these peppermint candy themed bookmarks and give them to your loved ones to wish them Merry Christmas.

If you want, you can also design and draw your own peppermint candy bookmarks by using the templates in the next page.
